Main power connections	5

new customer – registration

Attention: When creating a new address, please select the preferred language (English or German) and provide us with a valid UID/VAT number.

Please note that the registration process (verification and creation of the billing address in the system) **can take up to 2 business days**.

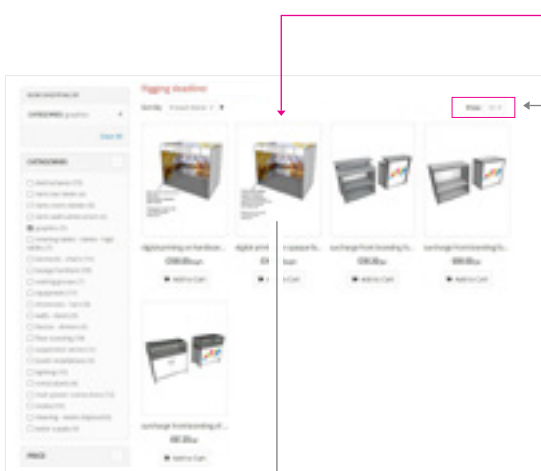

Especially this is important with regard to the **last minute surcharge (+25%)**.

This is automatically added to the apparent webshop price for orders placed **after the deadline**.

articles overview

Click on the image to open the detailed view of the desired item – here you can see additional information such as dimensions, material, scope of service etc.

TIP: With the selection „Show“ (right edge of the screen) all articles of the category can be displayed on one page.

	Side wall SW [m]	Side wall BW [m]	(SW + BW)*2.5 [m²]
2	2	10	
2	3	12,5	
2	4	15	
2	5	17,5	
2	6	20	
3	3	15	
3	1	17,5	
3	5	20	
3	6	22,5	
3	7	25	
3	8	27,5	
4	4	20	
4	5	22,5	
4	6	25	
4	7	27,5	
4	8	30	
5	5	25	
5	6	27,5	
5	7	30	
5	8	32,5	

EXAMPLE:

How do I order graphics for a 3x3m corner stand if I want to print the side wall and the back wall?

This 3x3m corner stand consists of a total of **6 printable wall panels** – select the desired number of panels and **multiply** this by the **wall height of 2.5m**.

The rule for calculation is:

Total length [m] of the printing area
x height [m] of the printing area.

$$(3+3)*2,5 = 15m^2$$

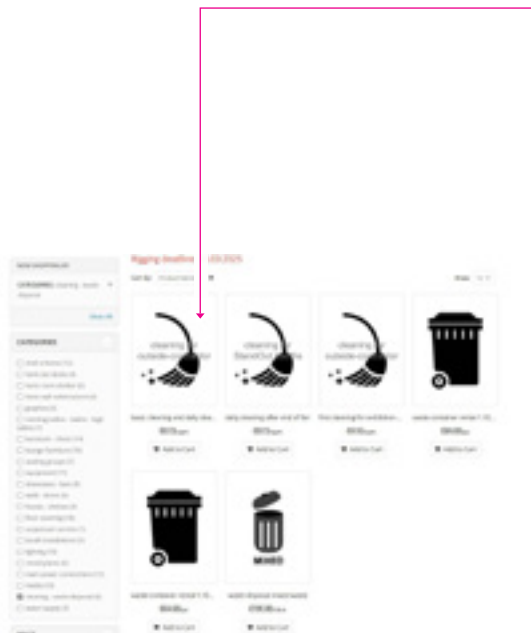

*** Change order quantity to 15 here and add item to shopping cart.**

TIP: Also use the comment field on the second page during checkout to tell us which areas/wall panels you would like to brand. You can also upload a mockup/technical plan

Click on the image to open the detailed view of the desired item – here you can see additional information such as scope of service etc.

Important: Change to booth size to order the correct amount

How to order waste bins [m²] for assembling and dismantling?

1. The picture/pictogram shows the scope of service.

You need to order:

1pc of container **AND** # pc of disposal [m³]

For more details please click the picture to jump to the article view before adding it to the cart!

2. You have everything you need?
– Go to your chart & check out

3. Important: Use the comment field on the second page during checkout to tell us how many emptying you need for either assembling and/or dismantling time.

Available Articles

What types of main power connection can I order?

1. The picture/pictogram shows the scope of service. For more details please click the picture to jump to the article view before adding it to the cart!

We offer two types of main power connections:

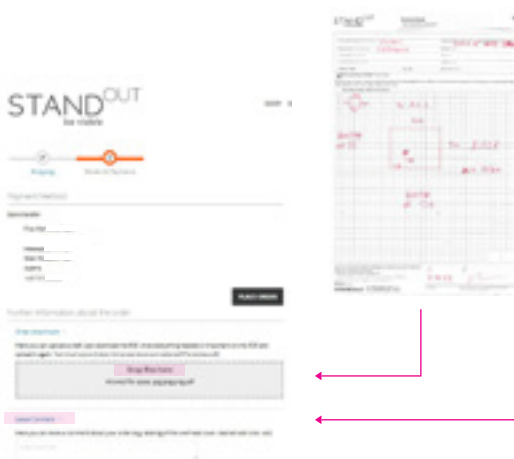

Without distribution board (left side) **OR**
With distribution board (right side)

You have everything you need?
– Go to your chart & check out

2. **Upload technical drawing!**
Why upload a plan and what does it contain?

The plan can be a simple but it **needs to contain 3 things:**

- Measures of your booth space
- Neighboring booth numbers/aisles for orientation
- Position of the main power connection drop with the booth

3. **Important:** Use the comment field on the second page during checkout to tell us how many bins you need for either assembling and/or dismantling time.
